NOTES TO FINANCIAL STATEMENTS

NOTE A - PLAN DESCRIPTION AND BENEFITS

General

The following description of the Rent-A-Center East, Inc. Retirement Savings Plan for Puerto Rico Employees (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

The Plan was originally effective January 1, 2010, has been amended and restated throughout the years, and was most recently amended effective January 1, 2026 to update the Plan policies for Company match and participant investment in Company securities as described below. The Plan is a defined contribution plan covering all Puerto Rico employees of Rent-A-Center East, Inc. (the “Company” or “Plan Sponsor”) who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended.

The Company serves as the Plan Sponsor and is responsible for all administrative duties described in the Plan document. Additionally, the Plan is governed by the Plan Administrative Committee of the Company, which monitors and determines the Plan’s structure, participant demographics, investment offerings and performance, and other administrative issues. Prior to January 1, 2026, INTRUST Bank, N.A. (“INTRUST”), was the custodian, NestEgg Consulting Inc. (“NestEgg”), an affiliate of INTRUST, was the recordkeeper and Banco Popular De Puerto Rico was the trustee of the Plan. Beginning January 1, 2026, Fidelity Workplace Services LLC (“FWS”) became the recordkeeper and Fidelity Management Trust Company (“Fidelity”) became the trustee of the Plan.

Contributions

The Plan permits participants to defer, on a pre-tax basis, up to 50% of their annual compensation, as defined under the Plan. These deferrals are not to exceed \$23,500 of their annual compensation (plus a \$7,500 catch-up deferral for employees over 50 years of age) for 2025. Participants may also contribute amounts representing rollovers from other qualified defined benefit or defined contribution plans. The Company made matching contributions equal to \$0.50 for each \$1.00 on the first 6% of eligible employee compensation in 2025. The Company, at its sole discretion, may make a profit sharing contribution at the end of each Plan year. The Company did not make a profit sharing contribution for the Plan year ended December 31, 2025. Beginning January 1, 2026, the Company will make matching contributions equal to \$1.00 for each \$1.00 on the first 3% of eligible employee compensation and \$0.50 for each \$1.00 of the next 2% of eligible employee compensation.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, Company’s matching contributions and Plan earnings or losses and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Eligibility and Vesting

Company employees are eligible to participate in the Plan after 90 days of employment. Participants immediately vest in their salary deferral contributions to the Plan plus allocated earnings thereon. Participants are vested in Company matching and profit sharing contributions and allocated earnings after two or more years of vesting service as defined by the Plan. Additionally, a participant becomes 100% vested if employment is terminated due

NOTES TO FINANCIAL STATEMENTS — (Continued)

to death or full and permanent disability. Beginning January 1, 2026, Participants will immediately vest in Company matching and profit sharing contributions and allocated earnings made in 2026.

Forfeitures

Upon termination of employment, a participant's unvested account balance forfeits to the Plan. These forfeitures, and forfeitures related to corrections of matching contributions resulting from discrimination testing corrections are to be used to pay restoration contributions, replace abandoned accounts, or offset employer contributions as defined in the Plan document. The balance of forfeited nonvested accounts to be used in future periods totaled approximately \$1,800 and \$2,500 as of December 31, 2025 and 2024, respectively.

Benefits

Upon retirement, death, disability, or separation from service, a participant (or the participant's beneficiary, if applicable) will receive a lump sum amount equal to the value of the participant's vested interest in the participant's account, or to the extent a participant's or beneficiary's account is invested in at least five whole shares of Upbound Group, Inc. common stock, the participant or beneficiary may elect to receive a distribution in whole shares of such stock, rather than in cash. The Plan allows participants to make hardship withdrawals, subject to certain limitations, as defined in the Plan document, and further modified for provisions included in the Bipartisan Budget Act of 2018. As of December 31, 2025 and 2024, the Plan had no unpaid benefits payable for withdrawals that had been elected but not yet paid.

Investments in Company Securities

Plan participants may elect to invest contributions in Upbound Group, Inc. common stock but are limited to 10% of their elected deferrals. In addition, a participant's total invested balance in Upbound Group, Inc. common stock may not exceed 50% of the total value of their account balance. Beginning January 1, 2026, Plan participants may no longer make future investment contributions in Upbound Group, Inc. common stock.

Notes Receivable from Participants

Participants may be granted loans from their fund accounts secured by their account balances. The limitation on the amount that can be borrowed at any time is the lesser of \$50,000 or 50% of the participant's vested account balance; the minimum loan amount is \$500. The repayment period of the loan cannot exceed five years, except for loans relating to the purchase of a primary residence for which the repayment period is fifteen years. The notes are secured by the balance in the participant's account and bear interest at the prime rate fixed as of the borrowing date. Principal and interest is paid ratably through payroll deductions. Interest rates on such loans range from 3.25% to 8.5% at December 31, 2025. Participant loans have various maturity dates ranging from 2026 to 2030.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Departamento de Hacienda are recorded as a liability with a corresponding reduction to contributions. The plan distributed the 2025 and 2024 excess contribution to the applicable participants prior to March 15 of the related subsequent year.

Termination of the Plan

While the Company has not expressed any intent to discontinue the Plan, it may, by action of its Board of Directors, terminate the Plan. In the event the Plan is terminated, the participants become 100% vested in their accounts.

NOTES TO FINANCIAL STATEMENTS — (Continued)

Administrative Expenses

In accordance with the applicable agreement, expenses for services relating to funds management and administrative expenses to the recordkeeper for distribution, valuation and mailing services related to Plan administration are paid by the Plan primarily using forfeitures. Forfeitures of approximately \$2,100 were used to pay plan administrative expenses during the year ended December 31, 2025.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

The financial statements of the Plan have been prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP"). A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. See Note C for further discussion of the Plan's valuation methods under fair value accounting standards.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned and dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from Plan participants and the matching contributions from the Company are recorded in the year in which employee contributions are withheld from compensation.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2025 and 2024. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

NOTE C - FAIR VALUE MEASUREMENTS

The Plan uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- *Level 1* - Readily accessible and unadjusted quoted prices in an active market for identical assets or liabilities.
- *Level 2* - Significant observable inputs other than Level 1 inputs, such as quoted prices for similar assets or liabilities in active markets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- *Level 3* - Significant unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

An asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to its fair value measurement. Valuation techniques used aim to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such instruments pursuant to the valuation hierarchy. The Plan did not change its valuation techniques associated with fair value measurements from the prior period, and there were no transfers between levels during the years ended December 31, 2025 and 2024.

When quoted market prices are available in an active market, investments in securities are classified within Level 1 of the valuation hierarchy. These securities include the Plan's mutual funds and Upbound Group, Inc. common stock, which are valued at the closing price reported by the exchanges on which they are traded. In addition, the money market deposit account is classified within the level 1 valuation hierarchy.

The stable value fund is a collective trust and is valued at the Net Asset Value ("NAV") of units of the bank collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The NAV is provided by the administrator of the fund, which is based on the value of the underlying assets owned by the fund minus applicable liabilities and then divided by the number of shares outstanding. There are no redemption restrictions on the stable value fund.

NOTE D - INCOME TAX STATUS

The Plan obtained its latest determination letter effective January 1, 2016, in which the Puerto Rico taxing authority, Departamento de Hacienda, stated that the Plan, as then designed, was in compliance with the applicable requirements of the Puerto Rico Internal Revenue Code (the “Code”) Section 1165(a). The Plan administrator and the Plan’s tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code, and therefore believe that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Departamento de Hacienda. The Plan has concluded that it has no material uncertain tax liabilities to be recognized as of December 31, 2025. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments include shares of Upbound Group, Inc.’s common stock. These transactions qualify as party-in-interest transactions. In addition, loans made to participants in the Plan are also considered party-in-interest transactions.

During the year ended December 31, 2025, the Plan incurred approximately \$7,000 and \$2,000 of fees associated with services provided by NestEgg and INTRUST, respectively, both of which qualify as party-in-interest transactions.

NOTES TO FINANCIAL STATEMENTS — (Continued)

NOTE F - RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the statements of net assets available for benefits. Please reference "Risk Factors" in Part I, Item 1A in our Annual Report on Form 10-K for the year ended December 31, 2025, which is incorporated by reference herein, for additional discussion of material risks related to the Company which may adversely impact the Company's operations, financial position, results of operations, cash flows and the value of the Company's common stock.
